

2003 So Cal Fires Paradise

October 2003

Values at Risk

- Values at Risk
- ▭ Fire Perimeter

Values at Risk labels refer to the Watershed Treatment Table in Appendix IV. They represent onsite and downstream threats to human life and property threatened by flooding. They were assessed rapidly. They are not all-inclusive. Values identified on non-Federal Lands require further evaluation.

The data represented in this map were gathered from multiple sources which may vary in accuracy, scale and date. This map is for reference only and not an official declaration of boundaries or ownership.
